# Prop Light Floor

BERTJAN POT

"We have round lights, we have straight lights. We have them with lights on one side, we have them with lights on two sides. You can hang them high, low, horizontally, vertically or even hang them in an angle. Put them on the floor, hang them on your wall or down from the ceiling. We find it very hard to imagine an interior where this prop is not in place" - Bertjan Pot

---

## *Detailing*

A theatrical, extravagant lamp that can be place on the floor. Its bubbly form and pure spirit brightens up any kind of environment.

## *Dimmer*

For fluent dimming behaviour we advise a dimmer that is compatible with the following specs.

**DIMMER TYPE**

Integrated dimmer

Please note the functioning of the dimmer and the power supply combination can never be predicted, it always needs to be tested in practice.
